

DriveDOCK Extreme

EXTRMDD

BEAM's **DriveDOCK Extreme** hands-free docking solution provides a high quality transport installation for the Iridium Extreme handset. The docking station has in-built echo cancelling and full duplex technologies to provide superior voice quality and professional hands-free or privacy calls for any vehicle, boat or aircraft*.

The Iridium Extreme handset fits securely in the dock, which features USB data connectivity, phone charging and integrated antenna, data and power connection making it possible to keep all antenna cables and power permanently connected to the **DriveDOCK** ready for use.

The Iridium Extreme handset fits securely in the docking station with an easy click to lock mechanism that can be inserted and removed with a press of a button. It is purposely built to allow you to utilize the SOS emergency button whilst docked.

DriveDOCK Extreme also supports the use of an optional Intelligent Privacy Handset, that replicates the full functionality of the Extreme handset in another location.

 * Independent Aeronautical certification MUST be gained prior to installation.
